

Product Description

From the Manufacturer

SDHC cards offer increased storage capacity for today's high-megapixel digital still-picture cameras and other devices that require extra storage space. Transcend's SDHC Class 4 cards provide reliable performance, above-average write speeds, and an industry leading lifetime warranty.

Excellent Speed and Capacity Solution

Featuring a guaranteed minimum write speed of 4MB/s and available in capacities ranging from 4GB to 32GB at an astonishingly affordable price, Transcend's Class 4 standard level SDHC cards are a great alternative for beginners and amateur photographers who do not need ultra fast memory cards. Although SDHC Class 4 cards are less expensive, you can still take extremely high-resolution digital masterpieces with your point-to-shoot camera.

Transcend's Class 4 SDHC cards - A cost-effective choice for beginners

Extensive SDHC device compatibility

Transcend's Class 4 SDHC cards offer excellent multi-platform compatibility and require very little power, which helps the battery in your device last longer. They can be used in a variety of digital products, including digital music players, handheld PCs, digital cameras, digital video camcorders, smart phones, car navigation systems, eBook readers, and more. When paired with our [TS-RDP8](#) card reader, uploading content to your other devices will be quick and seamless.

Enjoy quick and efficient performance from all your SDHC compatible devices

Improved camera response to capture fast-action

Built-in Error Correction Code (ECC)

Never worry about data loss with built-in ECC, which automatically detects and corrects any potential transfer errors. Coupled with a write-protection switch, you can rest assured your valuable memories are safe.

RecoverRx™ software

For an extra layer of security, Transcend SDHC Class 4 memory cards include our exclusive RecoverRx™ software – a user-friendly interface which allows you to search deep within a storage device for traces of erased files that can be rescued.

Fast and spacious to meet your needs – Perfect for capturing life's special moments

Storage Chart

	Photos	Music	Video
File Type	JPG ¹	MP3 ²	DVD ³
4GB	1952 photos	1000 songs	1.75 hours
8GB	3904 photos	2000 songs	3.5 hours
16GB	7808 photos	4000 songs	7 hours
32GB	15616 photos	8000 songs	14 hours

¹ Based on file size 2MB. ² Based on 4min per song, 128Kbps quality. ³ Based on 2.25GB per hour DVD quality. Storage capacity approximations are for general reference only. Actual results will vary depending on resolution, compression quality, video frame rate/interlace settings, and content. 1GB = 1 billion bytes. A certain portion of the storage capacity may be reserved for firmware and maintenance use.

* Note: speed may vary depending on the device and usage of hardware or software.
 * Available in Frustration-Free Packaging and/or regular retail package.
 Please see Transcend website for additional warranty details and limitations.
