

Ideal for use with today's Ultrabooks and thin-and-light laptops, Transcend's SuperSpeed USB 3.0 Hub transforms a single USB 3.0 port into four, instantly expanding the number of high-performance USB 3.0 devices you can connect to your computer at the same time. As it is USB bus powered with the cable attached, no extra power adapter is needed. Plus, the ultra slim and portable design allows you to transfer files wherever you go.

Features

- SuperSpeed USB 3.0 interface (backwards compatible with USB 2.0)
- Up to 10x faster than USB 2.0
- USB bus powered, no extra power adapter needed
- USB cable attached
- Ultra slim and portable design

SuperSpeed USB 3.0 interface

Compliant with the SuperSpeed USB 3.0 specification, Transcend's HUB2 provides data transfer rates up to 10 times faster than USB 2.0. What is USB 3.0? USB 3.0 is the latest version of Universal Serial Bus (USB) standard for computer connectivity. USB 3.0 can offer transfer rate of 5 gigabits per second, 10 times faster than USB 2.0.

Transforms a single USB 3.0 port into four

Transcend's HUB2 transforms a single port into four, instantly expanding the number of devices that you can connect to your computer at one time; perfect for Ultrabooks and thin-and-light notebooks that lack many USB 3.0 ports.

USB powered with cable attached

HUB2 is USB bus powered with cable attached, thus no extra power adapter is needed. Simply connect your devices to HUB2 to instantly open and view your files. The small and compact design allows you to carry it around easily without adding any extra burden, ideal for travel and business trip.

What's in the Package?

- HUB2
- Warranty Card
